Cos

When I inspected the temple in April 1903 I found the roof cracked and leaky and the building in danger of collapsing. I therefore asked the Amildar to submit an estimate for repairing the temple and to inform the Villagers that they will have to bear good portion of the work. The Amildar has accordingly submitted the enclosed estimate amounting to Rs 205 and has reported that the Villagers are prepared to pay a moiety of the amount. A sum of Rs 40 has already been collected and held in savings bank and Rs 63 is proposed to be paid by supplying 2,000 burnt bricks required for the work.

2. The Village is a large sized and an important one and the Villagers are very earnest in the repair of the temple and have come forward with a fair contribution of Rs 103, being one-half of the estimated cost of the work. Under these circumstances I beg to recommend that the estimate may be sanctioned and

and that the amount of Rs 102 required in excess of the contribution received from the villagers may be kindly sanctioned from state funds, there being no money available at the credit of the Temple.
